elite secret clubs have always influenced society first they build power then they bend others to help them knowingly or in ignorance to consolidate and expand their power base then they destroy society some of them already control the world when the word cult is used the response is usually the same dangerous subversive anti family anti social and while this is certainly true the most daunting discovery in this book is tha the most powerful secret societies are actually running the world seeking to destroy morality and the family unit while publicly appearing to be their biggest champions their ultimate weapons are power and time they have the power only time will bring their obscure scheme to its inevitable conclusion this book examines 21 of these elusive and deeply disturbing organizations and reveals in alarming detail how for five centuries they have successfully manipulated the global economy waged wars and controlled the balance of power to bring about a new world order

the largest tool used by the bloodlines to implement the new world order agenda is the global secret society network politicians bankers businessmen and media personalities the biggest names in history and world affairs form a huge secret society matrix this hierarchical pyramid structured network is constantly recruiting and placing members in key influential positions in order to orchestrate global events and policy decisions from behind the scenes many niche secret societies groom and position politicians media personalities and other yes men so they may best aid the great work

this book is an invitation to the secret world behind the veil of daily events in its pages you will meet the legendary cagliostro and the comte de saint germain as they travel through the royal courts and masonic lodges of eighteenth century europe fomenting revolution and working to overturn the social order of their day alchemists magicians illuminati adepts mystics and freemasons joined forces with politicians journalists scientists writers

philosophers and libertines in a movement that forever altered the cultural landscape of western civilization inaugurating two centuries of revolution and upheaval the french revolution of 1789 put an end to the concept of the divine right of kings led to the formal separation of church and state destroyed the remnants of medieval feudalism and heralded the values of the enlightenment as the triumphant banner under which the modern world would be born yet it was accompanied by a level of violence whose ferocity spoke more of an exorcism than a political restructuring what lessons does the revolution hold for us today do the forces of secret societies and silent conspiracies continue to influence the world historian una birch s classic account was originally published in 1911 her proximity to and sympathy with the events offer a unique perspective secret society expert james wasserman has made this work accessible to the modern reader with extensive annotations a history of the revolution an introduction that places the illuminati in context and biographical sketches of the main participants book jacket

masters of the world hidden behind many of today s major news stories the bilderberg group is an elite clique of the most powerful names in politics media business and finance who want to impose a one world government on the rest of us led by such iconic members as henry kissinger bill and hillary clinton richard perle melinda gates wife of bill gates david rockefeller paul wolfowitz donald rumsfeld tony blair and margaret thatcher their secret conferences where press has long been banned are rumored to have engineered many of today s monumental global events including the september 2008 collapse of worldwide banking bill clinton s presidency and the passage of nafta the loss of america s jobs to foreign nations the toppling of margaret thatcher for trying to keep the u k out of the e u

featuring interviews with meeting attendees the bilderberg conspiracy is essential and often terrifying reading for anyone interested in world events h paul jeffers reveals stunning insights about the bilderberg group wars coups assassinations control of banking finance the media and education any means necessary to fulfill their agenda michael benson author of inside secret societies h paul jeffers has published more than 50 works of fiction and nonfiction including freemasons inside the world s oldest secret society biographies of presidents theodore roosevelt and grover cleveland new york mayor fiorello laguardia diamond jim brady and others he lives in manhattan

secret societies of the middle ages explores the foundations of modern secret societies examining the history and known facts of three very different organizations 1 the assassins of the middle east how they evolved from an islamic religious sect into one of the most feared groups in all the world and how the very name of this ancient order became the word used for political killings of this nature 2 the templars of europe from a pious group of protectors and dedicated crusaders to their bitter end persecuted as heretics they introduced the concept of banking to the world while amassing a fortune of incalculable wealth 3 the secret tribunals of westphalia the feared and self appointed judicial group who passed judgment and performed executions in a time of lawlessness in germany they enjoyed popular support providing a rudimentary and vigilante law at a time when warlords ruled and the emperor was ineffective the echoes of these particular societies are still heard today from presidential offices to battlegrounds in the middle east secret societies of the middle ages originally published in 1846 was the first book to gather information on these secret orders this foundational reference work upon which many contemporary histories have relied is now back in print with an introduction by james wasserman author of the templars and the assassins the militia of heaven

the object of the present book is in the tracing the course secret societies i shall rely as far as possible on the documents and admissions of their members on which point i have been able to collect a great deal of fresh data entirely corroborating my former thesis it should be understood that i do not propose to give a complete history of secret societies but only of secret societies in their relation to the revolutionary movement i shall therefore not attempt to describe the theories of occultism nor to enquire into the secrets of freemasonry but simply to relate the history of these systems in order to show the manner in which they have been utilized for a subversive purpose if i then fail to convince the incredulous that secret forces of revolution exist it will not be for want of evidence

history is replete with whispers of secret societies accounts of elders or priests who guarded the forbidden knowledge of ancient peoples prominent men meeting in secret who directed the course of civilization are recorded in the writings of all people the oldest

is the brotherhood of the snake also called the brotherhood of the dragon and it still exists under many different names it is clear that religion has always played a significant role in the course of these organizations communication with a higher source often divine is a familiar claim in all but a few the secrets of these groups are thought to be so profound that only a chosen well educated few are able to understand and use them these men use their special knowledge for the benefit of all mankind at least that is what they claim how are we to know since their knowledge and actions have been secret fortunately some of it has become public knowledge most if not all primitive tribal societies all of the adults are members they are usually separated into male and female groups the male usually dominates the culture surprisingly this exactly resembles many civilized secret societies this can only mean that the society is working not against established authority but for it in fact could be said to actually be the established authority this would tend to remove the validity of any argument that all secret associations are dedicated to the destruction of properly constituted authority this can only apply of course where the secret society makes up the majority or entirety of any people which it affects only a very few fall into this category secret societies mirror many facets of ordinary life there is always an exclusivity of membership with the resultant importance attached to being or becoming a member this is found in all human endeavors even those which are not secret such as football teams or country clubs this exclusivity of membership is actually one of the secret societies most powerful weapons there is the use of signs passwords and other tools these have always performed valuable functions in man's organizations everywhere the stated reason however is almost always different from the real reason

mysterious and insular associations are a phenomenon as old as the pyramids people have formed clandestine organizations with idiosyncratic rules rites and practices that have attracted the wealthy respected and powerful from freemasons and knights templar to sons of liberty black hand and skull and bones these groups have been religious political nefarious or just plain silly and now this special edition from life unlocks the door to these secretive worlds from those organizations that were hidden behind the founding fathers that helped shape the course of history to those that have dabbled in the occult this beautifully illustrated edition takes you deep inside these fascinating organizations

one of the best books on secret societies ever written webster was an historical writer who wrote a number of books on the french revolution after world war i she was intrigued with the marxist revolt so wrote world revolution examining how and why people continue to revolt as her search went deeper clear meanings surfaced behind our revolutions and they involved an agenda by secret societies this book lays out in historical perspective how these secret societies and subversive movements have operated from behind the scenes not all of them aspire to rule the world or manipulate politics or world currency but there

are some major ones according to webster that are as a respected writer and world historian she provides proof from within these pages
